Projects

Resturant website/ *HTML, CSS, JavaScript, Bootstrap, MongoDB, NodeJS*   **October 2024**
- Enhanced a responsive web application for a bakery that allows users to browse categorized food items with images, descriptions, and prices, add them to a cart, and place orders with delivery or pickup options.
- With a user-friendly interface with cart management and a mobile-friendly layout using Bootstrap to ensure smooth browsing across all devices.
- Integrated a Node.js backend with MongoDB to handle user and order data, along with an admin panel for managing product listings and tracking order status.
- Github Repository Link: **https://github.com/vikikumar05/Restaurant-website**

Online Notes Sharing website/ *HTML, CSS, JavaScript, React, PHP, MySQL*   **September 2024**
- Created a fully functional and responsive web application that enables students and educators to upload, organize, share, and download academic notes and resources.
- Implemented features like user authentication, PDF/DOC uploads with tags, real-time search with filters, and download tracking to highlight popular content.
- Developed a responsive healthcare website using React and optimized for mobile/desktop, ensuring seamless user experience across devices and increasing mobile user engagement by 60% within the first quarter.
- Github Repository Link: **https://github.com/vikikumar05/Online-Notes-Sharing-System**

HealthCare website/ *HTML, CSS, JavaScript, Bootstrap, MySQL, NodeJS.*   **September 2024**
- Developed a responsive online jewelry store for a jewelry shop, allowing users to browse products, view detailed descriptions, and add items to a cart.
- Integrated features for cart management and order placement to provide a smooth shopping experience for users.
- Designed with a mobile-friendly interface and clean layout to enhance accessibility and visual appeal across all devices.
- Github Repository Link: **https://github.com/vikikumar05/Health-Care-website**

Jewelry website/ *HTML, CSS, JavaScript, React, PHP, MySQL*   **February 2024**
- Designed a responsive online jewelry store for a jewelry shop, allowing users to browse products, view detailed descriptions, and add items to a cart.
- Integrated features for cart management and order placement to provide a smooth shopping experience for users.
